Dear Sir,

**PROPOSED AMENDMENT TO APPROVED ERECTION OF 3 STOREY SINGLE USER GENERAL INDUSTRIAL FACTORY WITH PRODUCTION AREA, MEZZANINE AND ANCILLARY OFFICE ON LOT 04739NPT MK 07 AT TUAS SOUTH STREET 9 (TUAS PLANNING AREA)**

**- Letter of Appreciation and Commendation**

We refer to the above *Project works* for our facility awarded to SANWAH CONSTRUCTION PTE LTD on 26 August 2014 as the design and Build Main Contractor with a contract sum of S\$ 5,700,000.00]

Project processes several challenges as below, especially on:

1. Process of drying copper slag and its storage in Silos and the structural design to incorporate that
2. Air-flow flow chart and dust collection system for pollution control study
3. Construction of 6m depth sand pit for the onward sand storage
4. Machinery work with main building which was installed concurrently during the work process
5. Design and construction of 44m span steel truss; that resulted in intermediate column-less design at our production areas.

We are appreciative of your displayed professionalism and transparency on costing matters that delivered this project within our budget despite changing requirements on a short notice from our end. As I recall, the construction activities was done in full compliance with the authority requirements and Work Safety requirements without any major issues ,work stoppages and any related safety incidents

We thank your organization for your support and effort in achieving the successful execution and completion of the project, and we certainly look forward to future collaborations with your good company.

Yours faithfully,

Michael Lim  
General Manager
