Sanwah Construction Pte Ltd

SANWAH CONSTRUCTION IS PROUD TO RECEIVE THE 2014 bizSAFE ENTERPRISE EXEMPLARY AWARDS!

"If you talk to a man in a language he understands, that goes to his head. If you talk to him in his language, that goes to his heart." Nelson Mandela once said.

In SANWAH, workplace safety & health (WSH) is a language that speaks to both the heart and mind. This translates into critical thought processes on safety that are actively and intuitively applied in day-to-day tasks. A dynamic building and construction company based in Singapore, SANWAH has spearheaded several safety practices with its vendors and contractors, further promoting the WSH culture. Be it an industrial warehouse project, or a luxurious condominium, SANWAH's commitment to WSH has been consistent and unwavering in all its projects. Its recent bizSAFE accolade is yet again, a testament of its efforts.

Its passion for safety is part of the company's ethos for precision and perfection.

At SANWAH, this creed is as clear as 1...2... 

PASSION . PRECISION . PERFECTION
