The Workplace Safety and Health (WSH) Council congratulates ten winners of the bizSAFE Awards 2014. The Awards, which will be given out at the bizSAFE Convention today, recognise bizSAFE companies which lead the way as shining examples in their dedication and commendable performance in WSH.

Developed by the WSH Council in 2007, the bizSAFE programme helps small- and medium-sized enterprises (SMEs) build their WSH capabilities progressively. More than 17,000 enterprises are part of the bizSAFE community today. The bizSAFE certification is also increasingly recognised as an assurance of good safety practices.

The bizSAFE Enterprise Exemplary Award recognises SMEs that have achieved zero accidents, and have in place outstanding WSH management systems. SMEs which have made good progress in implementing risk management will receive the bizSAFE Enterprise Progressive Award.

Larger companies which have been proactive in advancing WSH within their companies and businesses by incorporating safety as part of their business model are honoured with the bizSAFE Partner Award.
